Unlock your SharePoint: Upgrade Validation .

- Find out if your Microsoft SharePoint deployment complies with Microsoft Best Practice
- Identify any potential upgrade issues
- Discover how you could reduce costs and overheads
- Map out an approach to upgrading your SharePoint farm
- Discover any corrective actions needed

TECHNOLOGY

Do you have an existing Microsoft SharePoint implementation?

Are you upgrading for the new features within the latest SharePoint version?

Are you unsure of the effort required or the potential issues involved?

Our CPS SharePoint Upgrade Assessment will de-risk the entire process for you and provide you with the confidence to upgrade painlessly. CPS will undertake a complete upgrade with our test equipment and provide you with a report of our findings along with recommendations to undertake the upgrade successfully. You can then upgrade in-house or ask CPS to manage the process for you.

All data will be handled under a Non-Disclosure Agreement to guarantee 100% confidentiality and security. Once your Upgrade Validation Report has been issued, we will remove and destroy all data from our systems to ensure that none of your information can be retrieved and that your business is fully compliant. Our security-vetted staff can also undertake onsite reviews to provide the highest level of data protection.

NO CAPITAL INVESTMENT

Hardware and Microsoft software provided by CPS.

EASY TO INITIATE

Simply provide your databases and solutions for our team to review.

EXPERT ADVICE

Your upgrade report will be complied by our Microsoft Certified Professionals.

Our Approach and Deliverables

To validate the feasibility of the upgrade, CPS will:

- Contact you to understand your current SharePoint usage
- Create a replica of your existing SharePoint farm at CPS
- Install your upgraded version at CPS
- Install any client, fully-documented custom solutions
- Upgrade the content database
- Document the findings with recommendations
- Highlight the upgrade issues and risks
- Provide you with a full upgrade report
- Contact you to explain and discuss the findings
