Microsoft 365 Compliance & Information Protection .

Information Protection & Governance begins with knowing your data, and regulatory obligations.

Protecting and governing your organisation's information is a daily challenge. Cloud technology has transformed how you work through increased agility, collaboration, and scalability. New and hybrid ways of working makes compliance and information protection more crucial than ever before.

CPS work with you to discover and classify your data, apply protection, and monitor and analyse your sensitive information for data loss and leakage prevention (DLP).

Discover, Protect and Govern your data with Microsoft 365 Compliance tools

Microsoft 365 Compliance provides complete visibility and control of your organisation's data through its lifecycle.

This engagement is for new and existing Microsoft 365 users of all sizes to define your modern Information Protection & Governance posture. We help you to begin your journey by:

CPS' Microsoft Certified team work with your IT and Security & Compliance teams to ensure that you:

• Comply with internal policies, industry and government regulation.
• Protect your sensitive data from loss and leakage
• Secure your identities with modern authentication

What can be included?

• Data Classification
• Sensitivity labelling and policies
• Data Loss Prevention (DLP) policies
• Retention labels and policies
• Records Management

Delivery comprises three stages that define your compliance posture and provide peace of mind.

"
The cyber security industry has encountered some major challenges during the past year, yet through it all, we've made significant progress on how to keep ahead of adversaries.

Peter Rising, MVP & Head of SCI, CPS
"
