Microsoft

Be a hybrid work hero with Microsoft Teams

Hybrid work transformed the way many of us run our businesses, with leaders working tirelessly to ensure their people could remain productive while logging in virtually. Even though hybrid work is our new reality, many employees are still jumping between disparate tools to get their work done. Constant app switching reduces performance, divides attention, and even lowers overall employee engagement.

We can help!

You're invited to our exclusive **Collaborative Apps Workshop,** where consultants from CPS will take a look at your unique business goals, workflows, and tools with you, then help create **one central hub for all your work in Microsoft Teams!** Experts will guide you through ways to extend and customise your Teams workspace, adding and connecting all the apps your people need to get their work done.

Then, consultants will then design a tailored plan to get your apps up and running - so you can start taking advantage of a centralised workspace right away.

Whatever your business needs, an app in Teams can help

Get started fast with a over 1,000 ready-to-use, easy to connect apps available in the Teams App Store.

Accelerate business outcomes by using low-code solutions, or building a custom app tailored to your needs.

Stay secure as applications, data, and communications are protected across Microsoft and partner services.

Why CPS?

As a Microsoft Gold Partner, CPS works with Microsoft to deliver expertise for security, compliance and identity when you need it. We aim to amplify the benefits of every solution we work with, and not expect that one set of functions will fit all requirements. Our team of consultants, architects and project managers work with you to envision a secure modern workplace where your employees are empowered to work from anywhere, across devices, in a compliant, trusted and secure manner.

We'll work with you to:

✓ Determine how to streamline processes and improve productivity and collaboration.

✓ Identify and prioritise use cases for key requirements and challenges.

✓ Develop an implementation plan and next steps for achieve your desired goals.
