

PMOaaS

Project management offices (PMOs) are created to consolidate project expertise and deliver project and programme outcomes.

The benefits are clearly understood; well-managed projects enable businesses to excel and gain competitive advantage as a result of:

- On-budget costs
- On-time delivery
- Quality deliverables
- Efficient controls and reporting
- Compliance with business standards / legislation

Project management offices need to be agile (note the lower case 'a') - focused on managing change, engaging stakeholders and delivering innovation.

THIS IS HOW CAN CPS HELP

CPS has over 25 years' experience delivering world-class PPM solutions. This experience has played a pivotal role in the development of CPS' PMO-as-a-Service offering, available in various guises.

PMO -AS - A - SERVICE ENABLES ORGANISATIONS TO:

Enable a PMO with reduced up-front and on-going costs

Utilise pre-defined and configurable processes, governance and tooling

Support successful, repeatable, delivery outcomes

CPS' PMOaaS enables organisation to have an agile, responsive PMO to support successful outcome, for a fixed monthly fee.

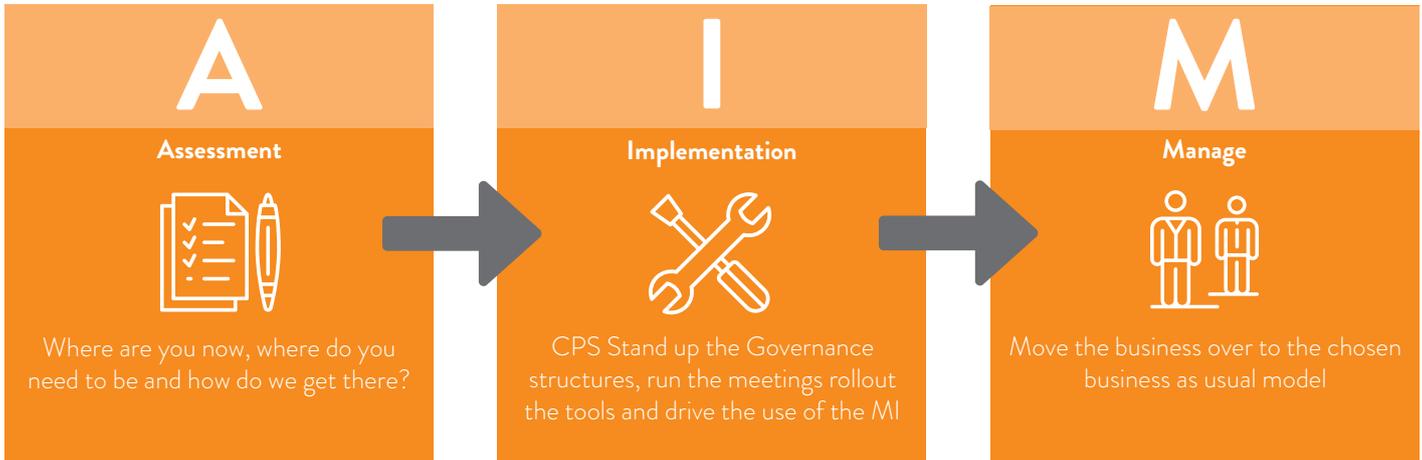

CPS helps organisations that are struggling to realise a return on investment or build a solid business case for their PMO.

To resolve these challenges CPS provides organisation with new ways of being supported, transform their businesses and provide significant cost savings, growth and innovation.

THIS IS HOW CAN CPS HELP PMOaaS OFFERINGS

CPS approach to delivering PMO as a Service follows three steps:

Assessment is the starting point and will provide a clear roadmap for further implementation. An evaluation of your company's processes and project organisation will take place, resulting in a comprehensive recommendation that identifies your project requirements, maps them with your business strategy and delivers actionable insights. A roadmap will be provided outlining the move from your current "as is" state to your "to be".

Implementation enables you to take a proven model, or the proven model tailored to your environment. CPS will then support the initial deployment over one of more reporting periods.

Supporting delivery of the PMOaaS, includes CPS running an adoption approach based on the Prosci™ model. Prosci™ is the industry standard for adoption and change management delivered by practitioners worldwide.

Manage is where PMOaaS becomes business-as-usual. CPS can continue to run your PMO via on-site and remote capabilities, or provide contract / FTE resources.

CPS can provide you with expert project managers, project co-ordinators, trainers and content managers change managers and in addition subject matter experts (SMEs), business analysts and IT specialists to effectively guide, manage and support high-visibility initiatives.

WHO IS CPS?

Founded in 1995, CPS is a multi-award-winning Microsoft Gold Partner which specialises in delivering innovative Microsoft technology solutions to help businesses on their journey to digital transformation.

We pride ourselves on solving technology and business problems with collaboration, employee engagement, change management and innovation from anywhere on any device. What makes us unique is that we don't just deal with the problems and the solutions, we also deal with the outcomes and the benefits.

To find out how we can support you on your journey, contact us today.
